Department of Fish and Game**

**STATUS REVIEW OF CALIFORNIA COHO
SALMON NORTH OF SAN FRANCISCO**

**Report to The California Fish and
Game Commission**

**Prepared by
The California Department of Fish and Game**

Candidate Species Status Review Report 2002-3

April 2002

TABLE OF CONTENTS

I. EXECUTIVE SUMMARY	1
Petition History	1
Conclusions	1
Recommendations	3
II. INTRODUCTION	5
Petition History	5
Department Review	6
Previous Coho Salmon Listing Actions	6
III. BIOLOGY	9
Species Characteristics	9
Range	9
Taxonomy and Systematics	13
Genetics	14
Life History and Unique Characteristics	21
IV. HABITAT NECESSARY FOR SURVIVAL	25
Adults	25
Juveniles	26
Essential Estuarine Habitat	29
Summary of Essential Habitat	29
V. STATUS OF CALIFORNIA COHO SALMON POPULATIONS NORTH OF SAN FRANCISCO	35
Structure and Function of Viable Salmonid Populations	35
Sources of Information	37
Historical and Current Distribution by Watershed	38
Presence-by-Brood-Year Investigation	53
2001 Presence Survey Information	55
Abundance and Trends	65
Conclusions	76
VI. FACTORS AFFECTING THE ABILITY TO SURVIVE AND REPRODUCE	79
Climatic Variation	79
Disease	83
Predation	85
Hatcheries	88
Genetic Diversity	99
Habitat Condition	101
Fishing and Illegal Harvest	133
VII. INFLUENCE OF EXISTING MANAGEMENT EFFORTS	139
Disease	139
Hatchery Operations	140
Forestry Activities	147
Water Diversion and Fish Passage Remediation	154

Gravel Extraction	160
Suction Dredging.	164
Habitat Restoration and Watershed Management	164
Commercial and Recreational Fishing.	181
Research and Monitoring Programs	183
VIII. CONCLUSIONS	185
IX. RECOMMENDATIONS	189
Petitioned Action	189
Future Management	190
X. RECOVERY CONSIDERATIONS	193
Recovery Planning	194
XI. ALTERNATIVES TO THE LISTING	197
XII. PROTECTIONS RESULTING FROM LISTING	201
XIII. LITERATURE CITED AND PERSONAL COMMUNICATIONS	203

LIST OF FIGURES

Figure 1.	Native range of coho salmon.	10
Figure 2.	Historical distribution of coho salmon in California	11
Figure 3.	Present distribution of coho salmon in California	12
Figure 4.	Bootstrapped parsimony tree showing the relationship of the six North American <i>Oncorhynchus</i> species that represent Pacific salmon using combined nuclear and mitochondrial DNA data.	14
Figure 5.	Coho salmon evolutionarily significant units (ESU) in California.	20
Figure 6.	Generalized life stage periodicity of coho salmon in California Coastal Watersheds.	23
Figure 7.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of the Smith River watershed. Includes portions of the Chetco River and Illinois River watersheds.	58
Figure 8.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of the Klamath River watershed.	59
Figure 9.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of the Trinity River watershed.	60
Figure 10.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of the Redwood Creek, Mad River, Eureka Plain, and Trinidad watersheds.	61
Figure 11.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of the Eel River watershed.	62
Figure 12.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of Mendocino County coastal and Russian River watersheds.	63
Figure 13.	Results of the 2001 presence surveys in historical coho salmon streams (Brown and Moyle 1991) of Marin County and San Francisco Bay coastal watersheds.	64
Figure 14.	California coho salmon hatchery production of juveniles vs commercial catch of adults two years later, 1979 to 1990. Both catch and production are numbers of fish.	66
Figure 15.	California commercial and ocean recreational coho salmon catch.	67
Figure 16.	Summer juvenile coho salmon densities in the Central California Coast Coho ESU.	71

Figure 17.	Juvenile coho salmon densities for: two index sites on Caspar Creek (top left); two index sites on Little River (top right); Pudding Creek (bottom left); two index sites on Hollow Tree Creek, South Fork Eel River (bottom right).	72
Figure 18.	Juvenile coho salmon density at two index sites in Caspar Creek for the 1987 brood year lineage, 1987 to 1999.	73
Figure 19.	Coho salmon outmigration in Caspar Creek and Little River, 1987 through 2001.	73
Figure 20.	Time series plots and predictions for coho smolts counts from Caspar Creek and Little River, Mendocino County.	74
Figure 21.	Time series plots with ≥ 10 years of data and predictions for coho juvenile indices from Caspar Creek and Little River, Mendocino County.	74
Figure 22.	Abundance trend indicators in the Southern Oregon/Northern California Coast Coho ESU (from NMFS 2001a).	75
Figure 23.	Conceptual model of effects of declining habitat quality and cyclic changes in ocean productivity on the abundance of coastal natural salmon.	82

LIST OF TABLES

Table 1.	Nomenclature for coho salmon.	13
Table 2.	Sample locations for genetics studies reviewed in the text.	15
Table 3.	Freshwater habitats of the different life-stages of northern California coho salmon.	30
Table 4.	Fundamental habitat elements and suitable ranges for coho salmon life-stages. ...	32
Table 5.	Historical presence of coho salmon north of San Francisco, as determined by Brown and Moyle (1991), and the Department's presence-by-brood-year investigation. .	54
Table 6.	Results of the Department's 2001 coho salmon presence surveys of SONCC Coho ESU streams listed by Brown and Moyle (1991) as historically containing coho salmon.	56
Table 7.	Results of the coho presence surveys in streams listed by Brown and Moyle (1991) as historically containing coho salmon for CCC Coho ESU streams.	57
Table 8.	Summary of estimated average coho salmon spawner abundance in California ESUs. Data are for the years 1987 through 1991.	70
Table 9.	Summary of differences between wild (W) and hatchery (H) salmonids.	91
Table 10.	Some stray-rate estimates for hatchery and natural coho salmon populations.	92
Table 11.	Forestry activities and potential changes to stream environment, salmonid habitat, and salmonid biology.	104
Table 12.	Major dams within the California portion of the Southern Oregon/ Northern California Coast Coho ESU, that block coho salmon from accessing historical spawning and rearing habitat.	120
Table 13.	Major dams within the Central California Coast Coho ESU, that block coho salmon from accessing historical spawning and rearing habitat.	121
Table 14.	List of Clean Water Act section 303(d) impaired water bodies within the range of coho salmon in California.	128
Table 15.	Harvest of coho salmon in the California commercial fishery for major ports of landings, 1952 - 2000.	135
Table 16.	Harvest of coho salmon in the California recreational fishery for major ports of landing, 1962 - 2000.	136
Table 17.	Estimated harvest of coho salmon in the Klamath/Trinity River system.	138

Table 18.	Recent coho salmon artificial production facilities in California.	142
Table 19.	Comparison of coho salmon artificial production (average number of fish released annually) at recently active California facilities.	142
Table 20.	A partial list of the coho salmon stocks used at selected artificial production facilities in California.	145
Table 21.	Recommended draft Hardy Phase II (HP II) flows for five water year types vs. Federal Energy Regulatory Commission (FERC) minimum flows in the Klamath River at Iron Gate Dam.	157
Table 22.	Total funds granted and number of projects funded through the Department's Fishery Restoration Grants Program, 1981 to present.	166
Table 23.	Projected 2001 coastwide Oregon Coast Natural and Rogue/Klamath coho harvest mortality and exploitation rates.	183

LIST OF APPENDICES

APPENDIX A. Public Notification and Solicitation of Information Relating to the Coho Salmon Status Review

- A1. Public Notice
- A2. Persons and Organizations Contacted
- A3. Newspapers that Published the Public Notice
- A4. Press Release
- A5. Letter to Scientific Collecting Permit Holders Soliciting Information
- A6. Scientific Collecting Permit Holders Contacted

APPENDIX B. Peer Review

- B1. List of Experts Solicited for Peer Review
- B2. Peer Review Comments Received

APPENDIX C. California Department of Fish and Game 2001 Coho Presence/Absence Investigation

- C1. Modified Ten Pool Protocol Methodology
- C2. List of Streams Surveyed

APPENDIX D. Historical Occurrence of Coho Salmon in The Upper Klamath, Shasta, and Scott Rivers.

APPENDIX E. California Commercial and Sportfishing Regulations

- E1. California Ocean Commercial Salmon Fishing Regulations
- E2. California Ocean Recreational Salmon Fishing Regulations
- E3. California Sportfishing Regulations for Inland Coastal Waters North of San Francisco

APPENDIX F. Research And Monitoring Activities Operating Within The Range of California Coho Salmon

LIST OF ACRONYMS

ACP	Aquatic Conservation Plan
BKD	Bacterial Kidney Disease
BLM	Bureau of Land Management
BMPs	Best Management Practices
BOD	Biochemical Oxygen Demand
BOF	California Board of Forestry and Fire Protection
CALCC	California Conservation Corps
CCC Coho ESU	Central California Coast Coho Evolutionarily Significant Unit
CCR	California Code of Regulations
CDF	California Department of Forestry and Fire Protection
CDFG	California Department of Fish and Game
CDPR	California Department of Parks and Recreation
CEQA	California Environmental Quality Act
CESA	California Endangered Species Act
CFIP	California Forest Improvement Program
CGS	California Geological Survey (formerly California Division of Mines and Geology)
Commission	California Fish and Game Commission
CRMP	Coordinated Resources Management Planning
CRR	Cohort Replacement Rate
CWA	Clean Water Act
Department	California Department of Fish and Game
DHS	California Department of Health Services
DO	Dissolved Oxygen
DWR	California Department of Water Resources
EEGP	Environmental Education Grant Program
ESA	Endangered Species Act
ESU	Evolutionarily Significant Unit
FEMAT	Forest Ecosystem Management Assessment Team
FERC	Federal Energy Regulatory Commission
FGC	California Fish and Game Code
FPA	Forest Practice Act
FPR	Forest Practice Rules
FRGP	Fishery Restoration Grants Program
GIS	Geographic Information System
HCP	Habitat Conservation Plan
HGMP	Hatchery and Genetic Management Plan
IWMA	Interim Watershed Mitigation Addendum
LWD	Large Woody Debris
MWAT	Maximum Weekly Average Temperature
MWMT	Maximum Weekly Maximum Temperature
NCWAP	North Coast Watershed Assessment Program
NMFS	National Marine Fisheries Service
OC Coho ESU	Oregon Coast Coho Evolutionarily Significant Unit
OCN	Oregon Coastal Natural
OPI	Oregon Production Index
PALCO	Pacific Lumber Company

PFMC	Pacific Fishery Management Council
RCD	Resource Conservation District
R/K	Rogue River/Klamath River
RM	River Mile
RPF	Registered Professional Foresters
RWQCB	California Regional Water Quality Control Board
SEIS	Final Supplemental Environmental Impact Statement on Management of Habitat for Late-Successional and Old-Growth Forests Related Species With the Range of the Northern Spotted Owl
SMARA	Surface Mine and Reclamation Act
SONCC Coho ESU	Southern Oregon/Northern California Coasts Evolutionarily Significant Unit
SRAC	Smith River Advisory Council
SRP	Scientific Review Panel
SWRCB	State Water Resources Control Board
SYP	Sustained Yield Plans
THP	Timber Harvest Plans
TMDL	Total Maximum Daily Load
TRT	Technical Recovery Team
USACE	United States Army Corps of Engineers
USBR	United States Bureau of Reclamation
USEPA	United States Environmental Protection Agency
USFS	United States Forest Service
USFWS	United States Fish and Wildlife Service
WSP	Americorps Watershed Stewards Project
